

Testimony by Dr. Valerie Hunt

Received on April 29, 2008

I am particularly excited about researching the instrument for the following scientific reasons:

1. The individual analysis of each person's field as to communication frequency patterns and time recommended for biofeedback is in line with the fact that all communication is patterned and changing. The constant reevaluation of the full field shows adaptive changes and uncovers hidden imbalances. This is the first instrument that I have seen that gives dynamic recording of a living person rather than a static evaluation of dense substances.
2. The ONDAMED with its extensive frequency range of 1Hz to 32 KHz has solved the most difficult problems of transferring energy from outside to inside tissues. The fact is that outside energy must penetrate the electromagnetic field of the human aura surrounding the body and radiating inside thru connective tissue. This unique auric field of each individual becomes a signature which encourages or restricts all communication with outside energies. Therefore outside stimuli must be compatible with this aura or greatly amplified to blast through this barrier. Organs and tissues are nourished by patterns of frequencies 1 to 250 Hz .The additional frequencies to 32 KHz are the microvoltage of the field which when introduced with the lower tissue frequencies provides a perfect interface. Other biofeedback instruments or procedures visual, auditory or tactile will require strong amplitudes to overcome the auric barrier or be inefficiently weak. Over stimulation in turn causes anticoherency in an individual's auric field, further limiting transactions with outside fields and the body's electromagnetic pool. The above scientific facts help explain the outstanding clinical treatment reports.
3. Intuitively I believe that the very high frequencies of the records will give us sound new facts about the elusive human mind and emotions as these control all human capabilities.
4. Starting summer 2008, my Bioenergy Fields Laboratory will include evaluation of all subjects as we carry out frontier research on hypoxia and inflammation as basic stresses in most diseases. Additionally, we will survey energy of neurological disabilities, Parkinson's, Alzheimer's, ADHD and autism. Results will be summarized and posted on my website www.bioenergyfields.org

Valerie V. Hunt

EDUCATION

| Earned Degree | School | City/State | Years |
|-------------------------------|-----------------------|-------------------|--------------|
| B.S. Biology | Florida State College | Tallahassee FL | 1936 |
| M.A. Physiological Psychology | Columbia University | New York NY | 1941 |
| Ed.D. Science Ed. | Columbia University | New York NY | 1946 |
| Honorary Degree | School | City/State | Years |
| Doctor Divinity | Phoenix Institute | San Diego, CA | 1984 |

CAREER HISTORY

| Positions | School | City/State | Years |
|--|---|-------------------|--------------------------|
| Science Teacher | Anniston High School | Anniston, AL | 1936-1938 |
| Assistant Anatomy Nursing Dept. | Columbia University | New York, NY | 1939-1940 |
| Chairman Health Education | Boston YWCA | Boston, MA | 1942-1943 |
| Instructor | Columbia University Teacher's College and College of Physicians and Surgeons | New York, NY | 1943/44-1946 |
| Assistant Professor | University of Iowa | Iowa City, IO | 1946-1947 |
| •Assistant Professor •Director, Division of Physical Therapy | UCLA (University of California Los Angeles) | Los Angeles, CA | •1947-1953 •1947-1964 |
| Associate Professor | UCLA | Los Angeles, CA | 1953-1964 |
| •Full Professor •Director of the Electromyographic Lab. | UCLA | Los Angeles, CA | 1964-1980 |
| Professor Emeritus, Dept of Physiological Science | UCLA | Los Angeles, CA | 1980-Present |
| Director BioEnergy Fields Laboratory | BioEnergy Fields Foundation | Malibu, CA | 1990-Present |
| CEO Malibu Publishing Co. | Malibu Publishing | Malibu, CA | 1995-Present |

CAREER RELATED ACTIVITIES

| Position | Organization | City/State | Year |
|--------------------------------|--|------------|--|
| Consultant | <ul style="list-style-type: none"> •National Board YWCA •National Early Childhood Education •UCLA School of Engineering Prosthetics Inst. •California Dept. Of Education •Chrysler Motor Co. Space Division Research •NASA Space Biology | | 1943-1946 1948-1950 1949-1951 1950-1960 1952 1958 |
| Field Reader | US. Dept. Of Health, Education and Welfare, Bureau of Research | | 1958-1965 |
| Reviewer for Science Textbooks | <ul style="list-style-type: none"> •McMillan Pub. Co. • Prentice-Hall Pub. • McGraw-Hill Book •W.B. Saunders &Co. | | 1959-1967 |
| Consultant | <ul style="list-style-type: none"> •Fetzer Foundation Energy Field Research • Heart Math Foundation | | 1989 1992 |

CREATIVE WORKS

| Role | Type of work | Title | Year |
|--------|--------------|--|--------------------------------------|
| Author | Books | <ul style="list-style-type: none"> •Recreation for the Handicapped (Prentice Hall) •Corrective Physical Education (W.B. Saunders) •Movement Education for Preschool (National Program Early Childhood Education) •Guidelines for Movement Behavior: Curricula for Early Childhood Education • Infinite Mind: Science of the Human Vibrations of Consciousness (Malibu Publishing) | 1955 1967 1972 1974 1993 |
